When I think of all the bad things I read in the paper I would like to say thank you to a fine group of people in Pamplin, Virginia. "The Friendly Hearts Club." They work and make money to help people They give of their time for the joy of helping someone else. My father, Luther Nash, received help from them in his sickness and knows what it means to have people come. May God bless each of these people working in the Friendly Hearts Club to make the Pamplin area such a wonderful place to live.

PUBLIC NOTICE
Southside Electric Cooperative Files For Rate Increase
On March 15, 1983, Southside Electric Cooperative filed with the Virginia State Corporation Commission an application for an increase in retail electric rates to its consumer-members. Southside Electric Cooperative stated in its application that the revised rates are intended to increase Cooperative revenues by approximately 10 percent. The total increase in Southside Electric Cooperative revenues would be approximately $2,197,000 annually.

The revised rate increase will become effective for all electric service rendered on or after March 20, 1983.

Notice of the Cooperative's application for the rate increase is presented below.

NOTICE TO THE PUBLIC OF PROPOSED RATE INCREASE BY SOUTHSIDE ELECTRIC COOPERATIVE:

Southside Electric Cooperative ("Cooperative") has filed with the State Corporation Commission of Virginia an application requesting an increase in rates charged for electric service. The Cooperative states in its application that the revised rates recover wholesale power increases currently being collected through Riders RS-5 and RS-6R and would produce additional revenues of approximately $2,197,000 or an approximate 10 percent increase in revenue.

Based upon the information filed with the application, the proposed rate increase would have the following effects on the different Cooperative rate schedules and customer classifications:

Rate Classification (Rate Schedules A, GSS, GTP, I, SL, PS)

All Cooperative Rate Schedule Classifications 10 percent increase.

Any interested party may review the application of the Cooperative and the proposed new schedules of increased rates during regular business hours at the office of the Commission's Clerk, Jefferson Building (formerly Blanton Building) of Richmond, Virginia or at any office of the Cooperative where bills may be paid off.

Any interested party has the right to request a public hearing with respect to the Cooperative's application and such request should be directed to the Clerk of the State Corportion Commission. P.O. Box 2118, Richmond, Virginia 23216. Such request should be made on or before May 19, 1983.

The Commission staff will make an investivation to determine the reasonableness of the rates proposed by the Cooperative and its report of the investigation on the increase will be filed within six (6) months of the filing. Subsequent to the submission of that report, the Cooperative will seek to have the expedited increase made permanent.
